<i>If "Other Funding," please explain how the item will be funded:</i>			
Executive Summary:			
<p>Squad 260 is an extended cab pickup that is used for both emergency and non-emergency responses.</p> <p>Improved emergency and non-emergency response reliability is a mission critical function and this unit is the only vehicle that tows the river rescue boat and associated equipment from Station #1.</p> <p>Purchased in 2001, the current vehicle is now 16 years old and has reached the end of its useful life. Significant structural corrosion damage has decreased the ability to safely operate the vehicle above 30 mph. The poor condition of the vehicle has reduced response reliability and increased the maintenance and repair costs.</p>
