<i>If "Other Funding," please explain how the item will be funded:</i>			
Executive Summary:			
<p>The FY 24 budget included funds for the purchase of an EV ready vehicle for the Engineering Division. At that time availability was limited and no Lightning vehicles were available to purchase. This purchase was intended to be carried into the next fiscal years but was omitted by error. Staff was just recently informed of two F-150 Lightning's that fit the specifications needed for city use and are available for purchase. While this purchase is not specifically budgeted, after review of Electric, Water/Wastewater, and General Capital Equipment budgets coupled with other purchases from these accounts being deferred due to supply delays, funds are available for the purchase of this vehicle. Vehicle specifications are included in the packet for your review.</p> <p>The Lightning will be purchased from Brad Manning Ford utilizing the Sourcewell Joint Purchasing Contract in an amount not to exceed \$63,517.70. The funding sources for this purchase will be split three ways between the General Fund, Electric Fund, and Water/Wastewater Funds.</p>
