INDEPENDENT AUDITORS' REPORT

The Honorable Mayor and
Members of the City Council
City of Geneva, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Geneva, Illinois, as of and for the year ended April 30, 2008, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Geneva's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Geneva, Illinois, as of April 30, 2008, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 14, 2008, on our consideration of the City of Geneva, Illinois' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

(Continued)

The management's discussion and analysis on pages 3 through 9 and budgetary comparison information and the schedules of funding progress of the Illinois Municipal Retirement Fund, Police and Firefighters' Pension Funds trend information, and the notes to the required supplementary information on pages 67 through 71 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquires of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Geneva, Illinois' basic financial statements. The combining nonmajor fund financial statements and the schedule, listed in the table of contents as supplementary information, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The accompanying other supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. This information has not been subjected to the auditing procedures applied in the audit of basic financial statements and, accordingly, we express no opinion on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

APRIL 30, 2008

The City of Geneva is continuing its implementation of Governmental Accounting Standards Board (GASB) statements 34, 37, 38, and 6 for the fiscal year ending April 30, 2008. These new accounting standards are designed to provide two perspectives of the City's financial performance; a focus on the City as a whole (government-wide) and a focus on the major individual funds. Both perspectives (government-wide and major fund) provide a broader basis upon which to compare and judge the City's financial accountability. This improved accountability is in part achieved by consolidating financial transactions (eliminating activities between certain funds and focusing on major funds), allocating specific revenues that finance operations to those expenditures, and displaying information about long-term financial decisions.

The management discussion and analysis is designed to (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the City's financial activity, (3) identify the City's financial position and ability to address future challenges, (4) identify material deviations from budget, and (5) identify concerns specific to individual funds. Readers are encouraged to review the additional information furnished in the transmittal letter that starts this report.

FINANCIAL HIGHLIGHTS

- The City's total net assets increased 0.50% or \$750 thousand, from \$150.9 million to \$151.6 million in 2008. Governmental net assets decreased 7.1% to \$71.7 million while business type net assets grew 8.5% to \$79.7 million.

REPORTING THE CITY AS A WHOLE

Government-wide Financial Statements

The City's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the City's overall financial status. Financial reporting at this level uses accounting similar to full accrual accounting used in the private sector. Inter-fund activity is eliminated and the cost of assets with a long service life is spread out over future years so that capital expenditures are amortized (through depreciation) when the benefits are realized.

The first of these government-wide statements is the *Statement of Net Assets*. This is the City-wide statement of position presenting information that includes all of the City's assets and liabilities, with the difference reported as *net assets*. Over time, increases or decreases in net

assets may serve as a useful indicator of whether the financial position of the City as a whole is improving or deteriorating. Evaluation of the overall health of the City would extend to other nonfinancial factors such as diversification of the taxpayer base or the condition of City infrastructure, in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities* which reports how the City's net assets changed during the current fiscal year. All current year revenues and expenses are included regardless of when the cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the City's distinct activities or functions on revenues provided by the City's taxpayers.

Both government-wide financial statements distinguish governmental activities of the City that are principally supported by taxes and intergovernmental revenues, such as grants, from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include general government, public safety, public services, insurance fund, and internal service funds. Business-type activities include electric, water and sewer utilities, refuse, parking, and cemeteries. Fiduciary activities, such as employee pension plans, are not included in the government-wide statements since these assets are not available to fund City programs.

The government-wide financial statements are presented on pages 10-12 of this report.

REPORTING THE CITY'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The City uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the City's most significant funds rather than the City as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for nonmajor funds is provided in the form of combining schedules in a later section of this report.

The City has three kinds of funds:

Governmental funds are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of the short-term financing decision. Both the governmental fund balance sheet and the governmental fund statement of revenues,

expenditures, and changes in fund balance provide a reconciliation to assist in understanding the differences between these two perspectives.

Budgetary comparison statements are included in the basic financial statements for the general fund. Budgetary comparison schedules for other funds can be found in a later section of this report. These statements and schedules demonstrate compliance with the City's budget.

The basic government fund financial statements are presented on pages 13-15 of this report.

Proprietary funds reported in the fund financial statements are for those services for which the City charges customers a fee. There are two kinds of proprietary funds, enterprise and internal service. Enterprise funds encompass the same functions reported as business-type activities in the government-wide statements. Enterprise fund services are primarily provided to customers external to the City organization such as those of the electric, water and sewer utilities and refuse function. Internal service funds provide services and charge fees to customers within the City organization such as equipment services and the insurance funds. Because internal service funds primarily serve the City, they are included within the governmental activities of the government-wide financial statements.

Proprietary fund statements provide both long-term and short-term financial information consistent with the focus provided by the government-wide financial statements, but with more detail for the major enterprise funds. Individual fund information for internal service funds and non-major enterprise funds is found in combining statements in a later section of this report.

The basic proprietary fund financial statements are presented on pages 16-21 of this report.

Fiduciary funds such as the employee pension plans are reported in the fiduciary fund financial statements, but are excluded from the government-wide reporting. Fiduciary fund financial statements report resources that are not available to City programs. Fiduciary fund financial statements report similarly to proprietary funds.

The basic fiduciary fund financial statements are presented on pages 22-23 of this report.

Notes to the financial statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin on page 24 of this report.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's funding of pension benefit obligations to its employees and budget information beginning on page 67.

Major funds are reported in the basic financial statements as discussed. Combining and individual statements and schedules for non-major funds are presented in a subsequent section of this report beginning on page 72.

Financial Analysis of the City as a Whole

The City implemented the new financial reporting model (GASB #34) beginning with the fiscal year that ended April 30, 2004. Over time, as year-to-year financial information is accumulated on a consistent basis, changes in net assets may be observed and used to discuss the changing financial position of the City as a whole. Historical information is included in these analyses to improve the usefulness of this data.

Financial Analysis of the City's Funds

Governmental Funds

As discussed, governmental funds are reported in the fund statement with a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of \$5.2 million, down \$1.6 million from the prior year. This decrease is due mainly to the prudent use of City resources to finance ongoing operations and major capital projects.

Major Governmental Funds

The General Fund is the City's primary operating fund and the largest source of day-to-day service delivery. The fund balance of the General Fund decreased from \$3.3 million to \$2.8 million at year end. Ending cash balance of \$1.6 million was down \$700 thousand from last year's balance.

Revenues missed budget expectations by \$300 thousand, largely from less than anticipated sales tax revenue for the year. Municipal tax income, however, along with state income tax, building permits and interest income remained strong. Expenditures were \$2.3 million less than budget due to the deferral of capital projects for the street program, river front renovation program and council chamber improvements.

Proprietary Funds

The proprietary fund statements share the same focus as the government-wide statements, reporting both short-term and long-term financial status information.

Major Proprietary Funds

The main proprietary funds operated by the City are the Electric, Water and Sewer and the Commuter Parking funds. In the Electric Fund with consumption up only slightly over the same period last year unchanged rates failed to propel revenues for the year missing budget projections. Strong service fees and reduced operating expenses, however, ended the year with strong positive growth. Capital projects highlighted by system improvement and development projects, the west side substation program and the underground cable replacement program. In the Water and Sewer Fund, with consumption near breakeven compared to the prior year, the rate increase could not provide revenues to achieve budget projections. Capital projects highlighted by the water treatment facility project and the water main replacement program. The Commuter parking fund is highlighted by grant revenues from Metra which were used to fund the new parking deck.

General Budgetary Highlights

The original budget was amended for various programs throughout the year. Prairie Green wetland improvements and Tri-Com consulting services caused amendments of \$110 thousand and \$46 thousand respectively, as well as, a \$399 thousand adjustment for the Mental Health fund home purchase. Carry over budget amendments were made for water main relocation at \$40 thousand, capital purchases at \$84 thousand and west side substation work at \$144 thousand. Finally, the general fund was amended by \$110 thousand for street department labor and additional snow removal costs and \$19 thousand for the emergency salt purchases.

Capital Assets

The City established a policy of capitalizing assets with \$5,000 or more in value. The City's investment in capital assets, net of accumulated depreciation, for governmental and business-type activities as of April 30, 2008, was \$214 million with \$86 million in governmental activities and \$128 million in business-type activities. Major capital asset events during the current fiscal year include the Water Treatment Facility project, the electric underground cable

project, Mental Health fund home, capital vehicle replacement, Council Chamber improvements, and the Commuter Parking Deck completion.

Long-Term Debt

At the end of the fiscal year, the City had total bonded debt outstanding of \$80.5 million. Of this total, \$27.4 million or 34% represents general obligation bonds, \$18.7 million or 23% in revenue bonds and \$30.4 million or 38% in notes payable. Additions for the year of \$16.0 million are derived mainly from IEPA notes and are offset by \$4.0 million in reductions. As a non-home rule government, under Illinois law, the City is limited in issuing debt.

Bond Ratings

Moody's Investors Service has reviewed and assigned an Aa3 rating on the City's general obligation refunding bonds as of June 2008 and previously assigned an Aa3 rating on their general obligation refunding bonds in 2006.

Economic Factors

As a non-home rule government, the City successfully passed a referendum to increase the local sales tax by ½% to be used for infrastructure improvements which went into effect in January 2008. The City of Geneva is primarily a residential community that relies heavily on property taxes, sales taxes from its two major business districts, and municipal tax from the City's electric and water utilities. Building permits continue to hold their own in a climate of decline as the City builds out.

The City's official population currently stands at 21,901 representing a 12.2% increase from the 2000 census. The population continues to grow in the western portion of the community in anticipation of the next census to be completed in the year 2010.

Overall Financial Position

The overall financial position of the City is sound. The deterioration in this year's Governmental Funds balance was planned financing ongoing operations and programmed capital projects with the non-home rule sales tax increase in place to rebuild future reserves. Utility rates were reviewed and in place to carry the Proprietary Funds until 2010.

Contacting the City's Financial Management

This financial report is designed to provide a general overview of the City's finances, comply with finance-related laws and regulations, and demonstrate the City's commitment to public accountability. If you have any questions about this report or would like to request additional information, contact the City's Finance Department at City of Geneva, 22 S 1st Street, Geneva, Illinois 60134 or access their website at www.geneva.il.us.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND
BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**

Year ended April 30, 2008

Amounts reported for governmental activities in the statement of activities are different

Net change in fund balances - total governmental funds \$ (1,611,798)

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense and loss on disposal in the current period. (4,565,752)

The issuance of long-term debt (e.g. bonds, compensated absences) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt, increases in compensated absences and increases in accrued interest payable consume the current financial resources of governmental funds. 664,468

Change in net assets of governmental activities \$ (5,513,082)

The accompanying notes are an integral part of this statement.

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 1. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Geneva, Illinois (the City) was founded in 1835. The City has a mayor-council form of government.

The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The following is a summary of the City's significant accounting policies:

A. Reporting Entity

In evaluating how to define the City for financial reporting purposes, management has considered all potential component units. The financial reporting entity is defined as the primary government and those component units for which the primary government is financially accountable. Financial accountability is defined as appointment of a voting majority of the component unit's board, and either a) the ability to impose will by the primary government, or b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government and fiscal dependency on the primary government. Based on these criteria, the City does not have any component units.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the City. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 1. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-Wide and Fund Financial Statements (Continued)

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Nonmajor funds are reported in the supplementary information.

C. Fund Accounting

The City uses funds to report its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types."

Governmental Funds

Governmental funds are used to account for all or most of the City's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital projects funds) and the servicing of general long-term debt (debt service funds). The general fund is used to account for all activities of the general government not accounted for in some other fund.

General Fund

The General Fund is used to account for most of the current day-to-day operations of the City which are financed from property taxes and other general revenues. Activities financed by the General Fund include those of all departments within the City which are not accounted for in other funds.

Special Revenue Funds

These Special Revenue funds account for revenues from specific sources, such as taxes and state and federal grants, which by law are designated to finance particular functions or activities.

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 1. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Fund Accounting (Continued)

Debt Service Fund

The Debt Service Fund is used to account for the payment of interest and principal on general obligation bonds and for the payment of rentals under capital lease obligations allocated to general governmental operations.

Capital Projects Funds

The Capital Projects Funds account for all resources used for the acquisition of capital facilities by the City except those financed by the Enterprise Funds.

Proprietary Funds

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the government (internal service funds).

Enterprise Funds

These funds are used to account for providing services to the general public where all or most of the costs involved are financed or recovered primarily by charges to users for the services.

Fiduciary Funds

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the City. When these assets are held under the terms of a formal trust agreement, either a pension trust fund, a nonexpendable trust fund or an expendable trust fund is used. The terms "nonexpendable" and "expendable" refer to whether or not the City is under an obligation to account for assets that the City holds on behalf of others as their agent.

Trust and Agency Funds

These funds consist of resources received and held by the City as trustee or agent to be expended or invested in accordance with the conditions of the trust or in its agency capacity. Pension Trust Funds are accounted for in essentially the same manner as Proprietary Funds.

Permanent Fund

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the reporting government's programs.

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 1. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded when payment is due.

Property taxes, licenses, interest revenue and charges for services revenues associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental fund:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The City reports the following major proprietary funds:

The *Electric Light Fund* accounts for the provision of electric services to the residents of the City. All activities necessary to provide such services are accounted for in this fund including, but not limited to, administration, operations, maintenance, financing and related debt service and billing and collection.

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 1. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The *Waterworks and Sewerage Fund* accounts for the provision of potable water services to the residents of the City. All activities necessary to provide such services are accounted for in this fund including, but not limited to, administration, operations, maintenance, financing and related debt service and billing and collection.

The *Commuter Parking Fund* accounts for the provision of parking services to the residents and nonresidents who use the City's parking lots. All activities necessary to provide such services are accounted for in this fund including, but not limited to, administration, operations, maintenance, financing and related debt service.

Additionally, the City reports the following fund types:

Pension Trust Funds account for the activities of the accumulation of resources to pay pension costs. Resources are contributed by members at rates fixed by state statutes and by the government through an annual property tax levy.

The City's proprietary funds apply all applicable GASB pronouncements as well as relevant Financial Accounting Standards Board (FASB) pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions and 3) capital grants and contributions. All taxes are reported as general revenue.

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 1. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The City reports unearned revenue on its combined balance sheet. Unearned revenues arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenues also arise when resources are received by the City before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the City has a legal claim to the resources, the liability for unearned revenue is removed from the combined balance sheet and revenue is recognized.

E. Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand, deposits in interest-bearing and noninterest-bearing checking accounts, Illinois Public Treasurer's Investment Pool, Government Money Market Portfolio and certificates of deposit with maturities of three months or less from the date of acquisition.

F. Investments

Investments consist of certificates of deposit, treasury obligations and insurance contracts with original maturities greater than three months. Short-term investments are stated at cost or amortized cost, which approximates market. Long-term investments (those with original maturities over one year) are stated at fair value. Investments are stated at fair value for pension funds.

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 1. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Short-term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet. Short-term interfund loans are also classified as "due from other funds" or "due to other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

H. Property Taxes

Property taxes are levied the last Tuesday in December and attach as an enforceable lien on property on January 1, and are payable in two installments on June 1 and September 1 subsequent to the year of levy. Property tax receivable is shown net of an allowance for uncollectibles. The property tax receivable allowance is equal to 1.5 percent of outstanding property taxes at April 30, 2007.

I. Receivables

The recognition of receivables associated with nonexchange transactions is as follows:

- Derived tax receivables (such as sales, income and motor fuel taxes) are recognized when the underlying exchange has occurred.
- Imposed nonexchange receivables (such as property taxes and fines) are recognized when an enforceable legal claim has arisen.
- Government - mandates or voluntary nonexchange transaction receivables (such as mandates or grants) are recognized when all eligibility requirements have been met.

J. Inventories

Inventories are valued at average cost, which approximates the lower of cost or market. The costs of governmental fund-type inventories are recorded as expenditures when consumed rather than when purchased.

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 1. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Restricted Assets

Certain proceeds of enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants.

L. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g. roads, bridges and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined as having a useful life greater than one year with an initial, individual cost of more than \$50,000 for streets, bridges and storm sewers, \$20,000 for sidewalks, and \$5,000 for all other capital assets. Such assets are recorded at historical cost, or estimated historical cost, if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Years</u>
Buildings	50
Land improvements	20
Infrastructure	20-50
Production and distribution system	20-50
Machinery and equipment	4-20

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 1. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

M. Compensated Absences

Accumulated vacation and sick leave that are expected to be liquidated with expendable available financial resources are reported as an expenditure and a fund liability of the governmental fund that will pay them. Accumulated vacation and sick leave that are not expected to be liquidated with expendable available financial resources are reported as long-term debt on the government-wide statement of net assets. Accumulated vacation and sick leave of proprietary funds are recorded as expenses and liabilities of those funds as the benefits accrue to employees. In accordance with the provisions of Statement of Financial Accounting Standards No. 43, *Accounting for Compensated Absences*, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating vacation and sick leave benefits that is estimated will be taken as "terminal leave" prior to retirement.

N. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or business-type activities statement of net assets. Bond premiums and discounts, as well as issuance costs, are unearned and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as unearned charges and amortized over the term of the related debt.

O. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance are determined by the Board and represent tentative plans that are subject to change.

P. Interfund Transactions

Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions, except reimbursements, are reported as transfers.

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 1. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Q. Self-Insurance

The City is self-insured to certain limits for dental and workers' compensation insurance. A liability is recorded when it is probable that a loss has occurred and that the amount of the loss can be reasonably estimated. Claims liabilities are based on estimates of the ultimate cost of reported claims including future claims and adjustment expenses. Dental and workers' compensation claims are paid out of their respective funds.

R. Use of Estimates

In preparing financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2. - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Funds Balance Sheet and the Government-Wide Statement of Net Assets

The governmental funds balance sheet includes a reconciliation between fund balance – total governmental funds and net assets – governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that “Long-term liabilities, including bonds payable and compensated absences payable, are not due and payable in the current period and, therefore, are not reported in the governmental funds.” The details of this \$20,995,050 difference are as follows:

General obligation bonds payable	\$ 17,562,150
Special service area bonds	325,000
Tax increment financing bonds	858,733
Notes payable	530,387
Accrued interest payable	218,668
Accrued pension obligation	206,147
Compensated absences payable	<u>1,293,965</u>
Net adjustment to reduce fund-balance total governmental funds to arrive at net assets – governmental activities.	<u>\$ 20,995,050</u>

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 2. -RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-Wide Statement of Activities

The government funds statement of revenues, expenditures and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$4,565,752 decrease are as follows:

Capital outlay	\$ (1,516,665)
Depreciation expense	<u>6,082,417</u>
Net adjustment to increase net change in fund balances - total governmental funds to arrive at change in net assets of governmental activities	<u>\$ 4,565,752</u>

Another element of that reconciliation states that "The issuance of long-term debt (e.g. bonds, compensated absences) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt, increases in compensated absences and increases in accrued interest payable consume the current financial resources of governmental funds." The details of this \$664,468 increase are as follows:

Accrued interest	\$ 1,693
Compensated absences	(68,668)
Issuance of long term liabilities	(595,000)
Accrued pension obligation	(77,959)
Principal payments on long-term liabilities	<u>1,404,402</u>
Net adjustment to increase net change in fund balances – total governmental funds to arrive at change in net assets of governmental activities	<u>\$ 664,468</u>

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 3. - COMPLIANCE AND ACCOUNTABILITY

The following funds had a deficit fund balance as of April 30, 2008:

Illinois Municipal Retirement Fund	\$ (376,118)
Mental Health	(8,705)

NOTE 4. - DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

A. Cash

The carrying amount of cash was \$7,924,506 at April 30, 2008, including petty cash of \$1,150, while bank balances were \$8,281,733. All account balances at banks were either insured by the Federal Deposit Insurance Corporation (FDIC) or are held in a third party institution in the name of the City. Bank deposits over FDIC insurable limits are secured by collateral to protect deposits in a single financial institution if it were to default. Collateral will have a market value equivalent to at least 100% of deposits at that particular institution. The collateral shall be marked to market and adjusted on at least a monthly basis.

The carrying amount and bank balance of cash for the pension fund's was \$45,682 at April 30, 2008 and all balances were insured or collateralized by investments held by a third party in the pension's

B. Certificates of Deposit

Certificates of Deposit amount to \$4,503,032 at April 30, 2008. All Certificates of Deposit were either insured by the Federal Deposit Insurance Corporation (FDIC) or are held in a third party institution in the name of the City. Bank deposits over FDIC insurable limits are secured by collateral to protect deposits in a single financial institution if it were to default. Collateral will have a market value equivalent to at least 100% of deposits at that particular institution. The collateral shall be marked to market and adjusted on at least a monthly basis.

Certificates of deposits for the pension fund's was \$198,000 at April 30, 2008 and all balances were insured or collateralized by investments held by a third party in the pension's name.

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 4. - DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS (Continued)

C. Investments

The members of the City council maintains a formal Investment Policy which address the governing provisions of the state law as well as specifying additional guidelines for investment process. The allowable investments from the City's policy are the same as those specified in the State statute. In general, these investments include instruments issued by the U.S. Government, federal agencies, high grade commercial paper, bank deposits, investment pools created under the State Treasurer's Act, and selected money market mutual funds.

The deposits and investments of the Police and Firefighters Pension Funds are held separately from those of other City funds. Statutes authorize the Pension Funds to make deposits/invest in interest-bearing direct obligations of the United States of America: obligation that are fully guaranteed or insured as to the payment of principal and interest by the United States of America: bonds, notes, debentures, or similar obligations of agencies of the United States of America; savings accounts or certificates of deposit issued by banks or savings and loan associations chartered by the United States or by the state of Illinois, to the extent that the deposits are insured by the agencies or instrumentalities of the federal government; credit unions, to the extent that the deposits are insured by the agencies or instrumentalities of the federal government; state of Illinois bonds; pooled accounts managed by the Illinois Public Treasurer's Investment Pool, or by banks, their subsidiaries, or holding companies, in accordance with the laws of the state of Illinois; bonds or tax anticipation warrants of any country, township or municipal corporation of the state of Illinois; money market mutual funds managed by investment companies that are registered under the Federal Investment Company Act of 1940 and the Illinois Securities law of 1953 and are diversified, open-ended management investment companies, provided that the portfolio is limited to specified restriction; general accounts of life insurance companies and separate accounts of life insurance companies provided that the investment in separate accounts does not exceed ten percent of the pension fund's net assets. Pension funds with net assets of \$2.5 million or more may invest up to thirty-five percent of plan net assets in a separate account of life insurance companies and mutual funds. In addition, pension funds with net assets of at least \$5 million that have appointed an investment advisor may, through that investment advisor, invest up to thirty five percent of the plan's net assets in common and preferred stocks which meet specific restrictions.

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 4. - DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS (Continued)

C. Investments (Continued)

Interest Rate Risk - As a means of limiting its exposure to fair market value losses arising from rising interest rates, investments of the City shall be limited to instruments maturing no longer than one year from the time of purchase.

The Pension funds' investment policy limits its exposure to interest rate risk by structuring the portfolio to provide liquidity, at the same time, matching investment maturities to projected fund liabilities.

Credit risk -the City's investment policy is to apply the prudent-person rule: Investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital, and, in general, avoid speculative investments. The City's investment policy and Illinois Statutes authorize the City to invest in obligations of the U.S. Treasury, agencies and instrumentalities, commercial paper issued by corporations organized in the United States with assets exceeding \$500,000,000, savings accounts and certificates of deposit issued by financial institutions insured by the Federal Deposit Insurance Corporation, repurchase agreements, short-term discount obligations of the Federal National Mortgage Association, dividend or share accounts of a credit union for which accounts are insured, money market mutual funds with portfolios limited to securities guaranteed by the United States and the Illinois Funds.

Concentration of Credit Risk - the City places no limits on the amount that may be invested in any one issuer. As of April 30, 2008, 96% of the City's investments are in the Illinois Funds Money Market Funds.

In addition to the City investment policy, the Pension Funds may invest in various accounts of life insurance companies authorized to do business in Illinois. Such investments may be made in general or separate investment accounts. However, the total investment in separate accounts shall not exceed 10% of the aggregate book value of all investments owned by each of the Pension Funds. Also, Pension Funds may invest in equity securities not to exceed 50% of the aggregate book value of all investments owned by each of the Pension Funds.

NOTE 6. - LONG-TERM LIABILITIES (Continued)

The outstanding debt consists of the following:

B. General Obligation Bonds

The government issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both general government and proprietary activities. These bonds, therefore, are reported in the proprietary funds if they are expected to be repaid from proprietary revenues. In addition, general obligation bonds have been issued to refund general obligation bonds. General obligation bonds are direct obligations and pledge the full faith and credit of the government. General obligation bonds currently outstanding are as follows:

2006B Bonds, \$1,515,000 original amount due in annual installments of \$5,000 to \$800,000, with interest ranging from 3.90% to 5.00%, payable through December 15, 2021.	\$ 4,895,000
2006D Bonds, \$4,905,000 original amount due in annual installments of \$5,000 to \$510,000, with interest ranging from 4.00% to 5.00%, payable through February 1, 2015.	1,485,000
2006C Bonds, \$840,000 original amount due in annual installments of \$5,000 to \$180,000, with interest at 4%, payable through February 1, 2013. These bonds are recorded in the Waterworks and Sewerage Fund, Electric Fund and as Long-term Debt on the government-wide statement of net assets.	820,000
2005 Bonds, \$5,000,000 original amount due in annual installments of \$145,000 to \$710,000 with interest ranging from 4.00% to 4.45%, payable through February 1, 2030. These bonds are recorded in the Waterworks and Sewerage Fund.	5,000,000
2002 Bonds, \$6,000,000 original amount due in annual installments of \$50,000 to \$680,000, with interest ranging from 4.60% to 5.00%, payable through December 15, 2021.	1,425,000
2002A Bonds, \$1,525,000 original amount due in annual installments of \$135,000 to \$185,000, with interest ranging from 3.80% to 4.125%, payable through June 15, 2012. These bonds are recorded in the Electric Fund and as Long-Term Debt on the government wide statement of net assets.	845,000

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS

NOTE 6. - LONG-TERM LIABILITIES (Continued)

B. General Obligation Bonds (Continued)

1999 Bonds, \$5,000,000 original amount due in annual installments of \$330,000 to \$1,405,000, with interest ranging from 4.50% to 6.50%, with principal payments beginning March 1, 2011 through March 1, 2019.	4,290,000
1998 Bonds, \$9,460,000 original amount due in annual installments of \$200,000 to \$975,000, with interest ranging from 4.30% to 4.35%, payable through March 1, 2018.	6,225,000
2007 Bonds, \$2,450,000 original amount due in annual installments of \$40,000 to \$430,000, with interest at 4%, payable through February 1, 2021. These bonds are recorded as Long-term Debt on the government-wide statement of net assets.	2,450,000
Total General Obligation Bonds	<u>\$ 27,435,000</u>

On December 13, 2006, the City issued \$4.9 million in 2006 B General Obligation Bonds with an average interest rate of 3.9% to advance partial refund 2002 Series Bonds with an average rate of 4.6% and 1999 Series Bonds with an average rate of 5%. The net \$5,079,847 were used to purchase U.S. government securities. Those securities were deposited into an irrevocable trust with an escrow agent to provide for some of the future debt service payments. The amount of the 2002 Series Bonds and 1999 Series Bond considered defeased and will be paid out of escrow as of April 30, 2008 is \$4,125,000 and \$710,000, respectively.

On December 13, 2006, the City issued \$840,000 in 2006C General Obligation Bonds with an average interest rate of 3.8% to advance partial refund 1997 Series Bonds with an average rate of 5.2%. The net \$845,564 were used to purchase U.S. government securities. Those securities were deposited into an irrevocable trust with an escrow agent to provide for some of the future debt service payments. The amount of the 2007 Series Bonds considered defeased and to be paid out of escrow as of April 30, 2008 is \$0.

On December 13, 2006, the City issued \$1.5 million in 2006D General Obligation Bonds with an average interest rate of 3.8% to advance partial refund 2000 Series Bonds with an average rate of 6.35%. The net \$1,567,871 were used to purchase U.S. government securities. Those securities were deposited into an irrevocable trust with an escrow agent to provide for some of the future debt service payments. The amount of the 2000 Series Bonds considered defeased and to be paid out of escrow as of April 30, 2008 is \$1,455,000.

City of Geneva, Illinois

Principal payments are due annually beginning October 18, 2005 through October 18, 2011, with interest at 3.22%. This note was issued through an intergovernmental cooperative agreement with two other governmental entities. Under the agreement, the City is directly responsible for 29.22% of the overall debt, or \$18,037 at April 30, 2008; however, if the other governments default, the other cities would be liable for the remaining balance. \$ 5,270

NOTE 6. - LONG-TERM LIABILITIES (Continued)

F. Notes Payable (Continued)

Waterworks and Sewerage Fund

In April, 2006, the City was awarded a loan of up to \$3,187,768 from the Illinois Environmental Protection Agency to use for the extension of the City's waterworks and sewerage facilities system. With annual payments including principal and interest of \$91,105. The interest rate is 2.5%. The payments will be made until December 2026. 2,746,900

In June, 2006, the City was awarded a loan of up to \$9,931,439 from the Illinois Environmental Protection Agency to use for the extension of the City's waterworks and sewerage facilities system. With annual payments including principal and interest of \$317,083. The interest rate is 2.5%. The payments will be made until July 2027. 9,739,110

In July, 2007, the City was awarded a loan of up to \$8,617,559 from the Illinois Environmental Protection Agency to use for the extension of the City's waterworks and sewerage facilities system. The interest rate is 2.5% and payments are not determined until the project is complete. 7,428,757

In October, 1998, the City was awarded a loan of up to \$5,400,000 from the Illinois Environmental Protection Agency to use for the extension of the City's waterworks and sewerage facilities system. The interest rate is 2.625% and payments are due until January 1, 2020, or until the amount received is repaid. 3,702,696

In September, 2002, the City was awarded a loan of up to \$5,500,000 from the Illinois Environmental Protection Agency to use for the extension of the City's waterworks and sewerage facilities system. The interest rate is 2.57% with semiannual payments due until November 1, 2024, or until the amount received is repaid. 4,583,464

Total	\$ <u><u>22,970,557</u></u>	\$ <u><u>5,145,352</u></u>

There is not an amortization schedule for one of the 2006 EPA loans because the City will not be required making payments until the projects are complete. The total of the loan as of April 30, 2008 is \$7,428,757.

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 7. - ELECTRIC LIGHT FUND

In November 2002, the Electric Light Fund sold \$18,735,000 of Electric Revenue Bonds, Series 2003. The proceeds of the issue were used primarily to improve and extend the existing electric system and to refund the outstanding Electric Revenue Bonds, Series 1995.

In order to provide for the payment of the Series 2003 revenue bonds, there is established by ordinance the "Electric Light Fund" of the City. This ordinance requires that the following separate accounts be maintained in the Fund designated as follows:

Operation and maintenance account	Bond reserve account
Interest and redemption account	Surplus account
Depreciation account	Capital improvement account

All monies held in the Fund are to be paid to the various accounts as listed below. If in any month the money in the Fund is insufficient to deposit, transfer or credit the required amount to the credit of any of the accounts, the deficiency is to be made up in the following month or months after payments into all accounts enjoying a claim to revenue have been met in full. The manner specified is as follows:

To the capital improvement account, all bond proceeds remaining and any interest earnings thereon.

To the operation and maintenance account, each month an amount sufficient to cover the estimated expenses of the operation and maintenance of the system under economical management for the next succeeding month, plus an amount equal to five percent (5%) of one-twelfth (1/12) of the total operations and maintenance costs for the most recently audited fiscal year.

To the interest and redemption account, each month a minimum amount equal to 1/6 of the interest coming due on the next succeeding interest date on the then outstanding bonds plus 1/12 of the installment of principal coming due on the bonds on the next succeeding principal maturity date.

To the depreciation account, each year the sum of \$40,000 until said account aggregates the sum of \$200,000 and, thereafter, each year the sum of \$12,500 until said account aggregates the sum of \$275,000. This account shall be used for necessary replacements or emergency repairs, and also may be used to pay interest or principal of outstanding bonds when no other funds are available. Whenever any money is paid out from this account, payments shall be resumed at the yearly rate of \$40,000 until the aggregate amount of \$275,000 is restored.

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 7. - ELECTRIC LIGHT FUND (Continued)

To the bond reserve account, in the first year, an amount equal to \$160,000, and each year thereafter, the sum of \$10,000 until said account aggregates an amount equal to the maximum annual debt service payable in any future year. This account is to be used solely for the purpose of paying principal and interest on the bonds when insufficient money is available in the interest and redemption account. Whenever any money is paid out from this account, payments shall be resumed at the yearly rate of \$10,000 until an amount equal to the maximum annual debt service payable in any future year is restored. Sums in this fund shall not be used to pay bonds called for payment prior to their maturity unless all bonds then outstanding are then retired.

The City may fund the bond reserve account with a reserve account insurance policy. This insurance policy may be deposited in lieu of or in partial substitution for cash to be on deposit in the bond reserve account. The City has purchased a reserve account insurance policy to meet this requirement.

To the surplus account, all money remaining in the Fund at the end of the fiscal year to be held and used for any purpose permitted by law; therefore, surplus money is not restricted.

The reserved cash for purposes other than the expenses of operating, maintaining and repairing the system is as follows:

Restricted bond ordinance accounts	
Bond interest account	\$ 1,333,307
Bond reserve	210,000
Depreciation account	<u>212,500</u>
Total	\$ <u><u>1,755,807</u></u>

NOTE 9. - COMMITMENTS AND CONTINGENCIES

A. Commuter Parking Fund

The Commuter Parking Fund leases parking areas from the Chicago Northwestern Railway Company. Pursuant to the terms of this lease agreement, rental payments are equal to 1/3 of the gross meter receipts. The current lease is on a month-to-month basis, pending a Metra buy-out of the leased facility.

B. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of the expenditures which may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 9. - COMMITMENTS AND CONTINGENCIES (Continued)

C. Commitments

Construction

The following details commitments outstanding at April 30, 2008 related to construction contracts:

<u>Fund</u>	<u>Amount</u>
Electric Light	\$ <u>1,768,538</u>

D. Economic Incentive Agreements

The City has several economic development incentive agreements outstanding at April 30, 2008, expiring through January, 2020. These agreements provide for the City to reimburse the respective companies a percentage of the actual sales taxes collected from these companies. Expenditures related to these agreements were \$400,884 for fiscal year 2008.

NOTE 10. - POSTEMPLOYMENT HEALTH CARE BENEFITS

In addition to providing pension benefits, the City provides certain health care and life insurance benefits for retired public safety employees. Substantially all of the City's public safety employees may become eligible for those benefits if they reach normal retirement age while working for the City. The cost of retiree health care and life insurance benefits is fully paid by the retirees.

NOTE 11. - CONDUIT DEBT

The City has one industrial revenue bond issues outstanding, at April 30, 2008, with an aggregate par value of \$4,000,000. The City has no obligation for this debt. There were no new bond issues during the fiscal year ended April 30, 2008.

NOTE 14. - PENSION AND RETIREMENT FUND COMMITMENTS

IMRF Plan Description and Contributions

The City's defined benefit pension plan, Illinois Municipal Retirement Fund (IMRF), provides retirement, disability, annual cost of living adjustments and death benefits to plan members and beneficiaries. IMRF acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the plan that can only be amended by the Illinois General Assembly. IMRF issues a financial report that includes financial statements and required supplementary information. That report may be obtained at www.imrf.org/pubs/pubs_homepage.htm or by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

Employees participating in IMRF are required to contribute 4.50 percent of their annual covered salary. The member rate is established by state statute. The City is required to contribute at an actuarially determined rate. The employer rate for calendar year 2007 was 10.59 percent of payroll. The employer contribution requirements are established and may be amended by the IMRF Board of Trustees. IMRF's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis (over funded liability amortized on open basis). The amortization period at December 31, 2007 was 25 years.

For December 31, 2007, the City's annual pension cost of \$804,611 was equal to the City's required and actual contributions. The required contribution was determined as part of the December 31, 2005 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions included (a) 7.50% investment rate of return (net of administrative expenses), (b) projected salary increases of 4.00% a year, attributable to inflation, (c) additional projected salary increases ranging from 0.4% to 10.0% per year depending on age and service, attributable to seniority/merit and (d) post retirement benefit increases of 3% annually. The actuarial value of IMRF assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period with a 15% corridor. The assumptions used for the 2007 actuarial valuation were based on the 2002-2004 experience study.

Plan Descriptions

Police Pension Fund

Police sworn personnel are covered by the Police Pension Plan, which is a defined benefit single-employer pension plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois State Statutes and may be amended only by the Illinois legislature. The City accounts for the plan as a pension trust fund. The City's payroll for employees covered by the Police Pension Plan for the year ended April 30, 2007 was \$2,654,867.

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 14. - PENSION AND RETIREMENT FUND COMMITMENTS (Continued)

Plan Descriptions (Continued)

Police Pension Fund (Continued)

At April 30, 2006, the Police Pension Plan membership consisted of:

Retirees and beneficiaries currently receiving benefits and terminated employees entitled to benefits but not yet receiving them	17
<hr/>	
Current employees	
Vested	37
Nonvested	-
<hr/>	
Total current employees	37
<hr/>	
Total	54
<hr/> <hr/>	

The following is a summary of the Police Pension Plan as provided in the Illinois State Statutes.

The Police Pension Plan provides retirement benefits as well as death and disability benefits. Employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive a retirement benefit of one-half of the salary attached to the rank held on the last day of service, or for 1 year prior to the last day, whichever is greater. The pension shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years, to a maximum of 75% of such salary.

Employees with at least 8 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit of 2.5% of final salary for each year of service. Surviving spouses receive the greater of 50% of final salary or the employee's retirement benefit. Employees disabled in the line of duty receive 65% of final salary.

The monthly pension of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension and 3% simple interest annually thereafter.

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS

NOTE 14. - PENSION AND RETIREMENT FUND COMMITMENTS (Continued)

Plan Descriptions (Continued)

Police Pension Fund (Continued)

Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The City is required to contribute the remaining amounts necessary to finance the plan, as actuarially determined by an enrolled actuary. By the year 2034, the City's contributions must accumulate to the point where the past service cost for the Police Pension Plan is fully funded.

Firefighter's Pension Fund

Fire sworn personnel are covered by the Firefighters' Pension Plan, which is a defined benefit single-employer pension plan. Although this is a single-employer pension plan, the defined benefits as well as the employee and employer contributions levels are mandated by Illinois State Statutes and may be amended only by the Illinois legislature. The City accounts for the plan as a pension trust fund. The City's payroll for employees covered by the Firefighters' Pension Plan for the year ended April 30, 2007 was \$1,479,228. At April 30, 2007 the Firefighters' Pension Plan membership consisted of:

Retirees, beneficiaries, and disabled employees currently receiving benefits and terminated employees entitled to benefits but not yet receiving them	5
Current employees	
Vested	13
Nonvested	8
Total current employees	21
Total	26

The following is a summary of the Firefighters' Pension Plan as provided for in Illinois State Statutes.

The Firefighters' Pension Plan provides retirement benefits as well as death and disability benefits. Employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive a monthly retirement benefit of one-half of the monthly salary attached to the rank held in the fire service at the date of retirement. The monthly pension shall be increased by one-twelfth of 2.5% of such monthly salary for each additional month over 20 years of service through 30 years of service, to a maximum of 75% of such monthly salary.

City of Geneva, Illinois
NOTES TO FINANCIAL STATEMENTS
April 30, 2008

NOTE 14. - PENSION AND RETIREMENT FUND COMMITMENTS (Continued)

Plan Descriptions (Continued)

Firefighters' Pension Fund (Continued)

Employees with at least 10 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced retirement benefit ranging from 15% of final salary for 10 years of service to 45.6% for 19 years of service. Surviving spouses receive 100% of final salary for fatalities resulting from an act of duty, or otherwise 54% of final salary. Surviving children receive 12% of final salary. The maximum family survivor benefit is 75% of final salary. Employees disabled in the line of duty receive 65% of final salary. The monthly pension of a firefighter who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching at least the age of 55 years, by 3% of the pension payable at the time of the increase.

Covered employees are required to contribute 9.455% of their salary to the Firefighters' Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. By the year 2034, the City's contributions must accumulate to the point where the past service cost for the Firefighters' Pension Plan is fully funded.

Contributions and Reserves

The City's annual pension cost and net pension obligation to the Police and Firefighters' pension funds were obtained from the funds' most recent actuarial valuations (April 30, 2007) and are as follows:

	Police	Firefighters'
Annual required contribution	\$ 459,272	\$ 223,749
Interest on net pension obligation	8,243	1,371
Adjustment to annual required contribution	(5,565)	(926)

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
April 30, 2008
(Unaudited)

NOTE 1. - BUDGETS

During the current fiscal year, the City Council adopted a budget ordinance that follows the "Budget Act" in accordance with Illinois Statutes. In accordance with this ordinance, all estimated revenues and expenditures, by fund, must be approved by the City Council. All subsequent revisions to the adopted budget must be approved by the City Council. The budget was last amended on March 8, 2008. All funds have legally adopted budgets except for the Police Pension Fund, the Firefighters' Pension Fund and the Employer Pension Contribution Fund.

The level of control (level at which expenditures may not exceed budget) is the fund. All unencumbered annual appropriations lapse at the fiscal year-end. The statements are presented in compliance with generally accepted accounting principles which serves as the budgetary basis.

NOTE 2. - ACTUAL EXPENDITURES IN EXCESS OF BUDGET IN INDIVIDUAL FUNDS

Expenditures exceeded budgets in the following funds for the year ended April 30, 2008:

	<u>Budget</u>	<u>Expenditures</u>	<u>Overage</u>
Combined Special Service Area	\$ 459,622	463,070	\$ (3,448)
Illinois Municipal Retirement	545,351	550,155	(4,804)
Liability Insurance	152,500	181,273	(28,773)
Medical Dental Insurance	114,200	122,338	(8,138)
Special Service Area #12 Construction	32,008	32,575	(567)
Electric Light	29,016,106	29,040,198	(24,092)
Commuter Parking Fund	510,755	617,460	(106,705)
Cemetery	89,903	101,019	(11,116)

City of Geneva, Illinois
POLICE AND FIREFIGHTERS' PENSION FUNDS
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
April 30, 2008
(Unaudited)

NOTE 2. - ACTUAL EXPENDITURES IN EXCESS OF BUDGET IN INDIVIDUAL FUNDS (Continued)

Explanations for budget overages:

Combined Special Service Area - Overage due to excess snow removal costs in the downtown parking fund

Illinois Municipal Retirement - Overage due to under estimation of the contribution rate for the year

Liability Insurance - Overage due to excessive workers compensation claims

Medical Dental Insurance - Overage due to excessive claims on dental insurance

Special Service Area #12 Construction - Overage due to contract services not budgeted

Electric Light - Overage due to underestimated purchase power costs

Commuter Parking Fund - Overage due to excessive purchase power costs and unbudgeted depreciation and accrued interest expense

Cemetery - Overages due to unbudgeted depreciation and capital equipment purchases below capitalized threshold

**NOTE 3. - ILLINOIS MUNICIPAL RETIREMENT FUND SCHEDULE OF FUNDING
PROGRESS DIGEST OF CHANGES**

Assumptions:

The actuarial assumptions used to determine the actuarial accrued liability for 2007 are based on the 2002-2004 Experience Study.

The principal changes were:

- The 1994 Group Annuity Mortality implemented.
- For regular members, fewer normal and early retirements are expected to occur.
