Kitchen Remodel Permit Information

Revised 10/2/18

A building permit is required prior to remodeling your kitchen. The following are guidelines and comments for obtaining a building permit.

Application and Drawing Procedures:

- An Application for Permit is to be filled out and submitted to the Building Division. The contractor's name, address, phone number and, if required, their licenses numbers and certificates are to be provided when submitting the application.
- Three (3) copies of the drawings to scale showing construction details for the remodel of the kitchen is to be submitted with the application.
- A PDF electronic copy of the plan is required (in addition to the paper copies) if the plan size is larger than 11" x 17". The electronic copy must be submitted on disk or emailed to pdf@geneva.il.us.
- Plumbing work may be done by the homeowner only if the home is owner occupied. If anyone else does the plumbing work or if it is a commercial property, the work must be done by an Illinois licensed plumber. The individual or company is to provide a Letter of Intent, on their letterhead, indicating they are conducting the work for this project. If the plumbing company is incorporated, the Letter of Intent must be stamped with their corporate seal. If the plumbing company is an LLC, then it must be notarized. Along with the Letter of Intent, please provide a copy of their Illinois State Plumbing License and Illinois State Contractor License.
- Allow 10 working days for the permit to be reviewed and approved. A staff member will call you and let you know when the permit is ready to be picked up and paid for.

Fees: Kitchen remodel permit fee is based on project cost.

- \$50.00 plan review fee plus
- \$75.00 for the first \$1,000 of project cost plus
- \$10 per each thousand or portion of the project cost after the first \$1,000.
- Plumbing fees as determined by the scope of the work.
- We accept cash, check (made payable to the City of Geneva), MC, Visa, AMEX, and Discover.

Re-inspection fees: During the construction of the project, should any of the required inspections fail, there is a re-inspection charge. The fee is due prior to scheduling the next inspection.

- \$75.00 per re-inspection for all types of building inspections during construction.
- \$75.00 + \$25.00 for the third inspection if the first two failed.
- \$66.00 per plumbing re-inspection.

General Comments:

- **The application packet and stamped City approved plans are to be on the job site at all times.**
- A minimum of 24-hour notice is required when scheduling any inspection.
- All counter top service receptacles must be 20-amp GFCI protected and installed 2-feet from a break (i.e. sink, stove...) then every 4-feet thereafter and 12-inches counter top. (see attached)
- A minimum of two (2) 20-amp branch circuits shall supply the counter top receptacles.
- A separate circuit is required for a microwave.

- A separate circuit is required for a disposal and dishwasher.
- A new kitchen stove exhaust fan shall be hard piped and discharged to exterior unless designed to recirculate.
- All fixtures to appliances are required to have their own water shut offs.
- It is not allowed to have the dishwasher drain connected to garbage disposal.
- A 2-inch drain is required to the kitchen sink.

Per the 2015 International Energy Conservation Code, construction documents drawn to scale shall be of sufficient clarity to indicate the location, nature and extent of the work proposed, and show in sufficient detail pertinent data and features of the building, systems and equipment. Details shall include, but are not limited to the following:

- Any circulating hot water system piping shall be insulated to a minimum of R-3.
- Insulation materials and their R-values.

Inspections – Clarification and Details:

The following is a list of inspections that may be required for your project and the approximate amount of time it will take for the inspection.

✓ Framing	½ hour
✓ Electric	½ hour
✓ HVAC	½ hour
✓ Insulation	½ hour
✓ Plumbing	½ hour
✓ Final Inspection	½ hour

The following are general guidelines and details on the types of inspections that may be required for your project. For further clarification please call our office and speak with one of our building inspectors.

Frame and Electric: – Inspected at the same time. Prior to inspection....

- ✓ All counter top service receptacles must be 20-amp GFCI protected and installed 2-feet from a break (i.e. sink, stove...) then every 4-feet thereafter and 12-inches counter top. (see attached)
- ✓ In closets or pantries with switched lights installed, a minimum clearance of 6-inches is required from the fluorescent bulb to the front of the shelf.
- ✓ Access to any electrical box is required and the box cannot be buried behind any drywall.

Plumbing (Underground and Aboveground): Any plumbing that is done will need to be completed by the homeowner that occupies the building or an Illinois Licensed Plumber. Any deviations from the State of Illinois Plumbing Code must be approved in writing by a State Plumbing Inspector.

- ✓ Plumbing inspections are performed by First Inspection Services. The number of plumbing inspections required is determined by the scope of the work. Any questions please call 630 879-6145.
- ✓ No plumbing license is required for existing fixture removal and replacement.
- ✓ Drains, waste, and vents must be Schedule 40 PVC or cast iron.
- ✓ All plumbing clean out plugs must be easily accessible.
- ✓ For any underground (floor) plumbing, a concrete inspection will be required which includes 1/2 rebar drilled into existing slabs on 24 inches on center and a 6-mil vapor barrier over top of the stone. This will help to ensure a radon gas seal and that the new slab will not fail.

HVAC:

- ✓ A new kitchen stove exhaust fan shall be hard piped and discharged to exterior unless the unit is designed to recirculate.

Insulation:

- ✓ The inspection for new insulation is to make sure that a minimum R-15 insulation with vapor barrier is installed on all finished exterior walls.

Final:

- ✓ A final inspection is conducted when the kitchen has been totally completed.
- ✓ All outlets are plug tested.
- ✓ Plumbing fixtures are tested.
- ✓ Anything that is unique to the project is checked at this time.

Building Codes:

The following are the Building Codes the City of Geneva has adopted.

- City of Geneva Municipal Code
- 2009 Int'l Building Code w/amendments
- 2015 Int'l Mechanical Code
- 2005 Nat'l Electrical Code
- 2014 State Plumbing Code
- 2015 Int'l Residential Code w/amendments
- 2009 Int'l Fire Code w/amendments
- 2015 Int'l Energy Conservation Code
- 2015 Int'l Swimming Pool and Spa Code w/amendments
- 2015 Int'l Fuel and Gas Code w/amendments

Homeowner – Contractor Responsibilities:

- It is the responsibility of the homeowner/contractor to schedule with the required inspections. The required inspections are indicated on the Plan Review Form, which is attached to your permit and the Field Copy of drawings. When calling to schedule an inspection, please have the address and permit number available.
- Inspections shall be canceled a minimum of 24 hours before the scheduled time.
