March 26, 2020

Press Release

Fabyan Parkway, Orchard and Randall Roads Highway Safety Intersection Project (HSIP) Kane County Section #12-00424-00-SP

Traffic signal equipment upgrades are scheduled for 29 intersections along Fabyan Parkway, Orchard and Randall Roads from Mill Creek Drive east to Raddant Road, and Mill Street south to Jericho Road, starting the week of March 30, 2020, weather permitting. This work will be conducted in two stages and is anticipated to be completed by mid-May 2021. The improvements will involve removal and modification of traffic signals and street lights, handicap ramps and pedestrian crossings.

Stage one work, which will include upgrades to sidewalk, pedestrian crossings, and new traffic signal foundations taking approximately 3 – 4 weeks at each intersection and may result in temporary day time lane closures and disruptions of traffic at the intersections. Work will be done during the hours of 7:00 am to 3:30 pm Monday thru Friday, weather permitting, and will start at Fabyan Parkway and Mill Creek Drive and Fabyan Parkway and Branson Drive. Work will then proceed east.

Below are the 29 intersections that will be improved and are listed from north to south. This list is for informational purposes only, and does not represent the order of work:

- Fabyan/South Mill Creek
- Fabyan/Viking/Branson
- Fabyan/Walmart Entrance
- Fabyan/Randall Rd
- Fabyan/Bent Tree
- Fabyan/Western
- Fabyan/IL 31
- Fabyan/IL 25
- Fabyan/Raddant
- Orchard/Jericho Rd.
- Orchard/Prairie St.
- Orchard/Coach/Surrey Ln.
- Orchard/Galena
- Orchard/Illinois
- Orchard/West Indian Trail
- Orchard/Home Depot Entrance
- Orchard/Sullivan
- Orchard/I-88 ramps east and west
- Orchard/Gateway
- Orchard/Oak St.

- Orchard/White Oak Dr.
- Orchard/Comiskey Ave.
- Randall/Mooseheart
- Randall/Wilson St.
- Randall/Main St.
- Randall/McKee St.
- Randall/Mill St.
- Hughes Road

The second stage of work will involve the removal of existing traffic signal mast arms and the installation of a yellow flashing phase signal heads to the existing traffic signals at all locations. This work will require the temporary shutdown of traffic signals with the control of the intersections replaced by 4-way stop signs for approximately 4-6 hours per intersection. **During this work phase, traffic traveling through the intersections shall experience longer than normal traffic delays. Additional press releases will be provided to the public before the second phase begins, warning them of this upcoming work.**

Motorists should expect delays during the first stage of the work and are encouraged to pay attention to temporary lanes closures and flaggers around the work area. Motorists may want to consider seeking alternate routes during the second stage portion of the traffic signal upgrades.

Any questions or concerns may be directed to David Boesch with the Kane County Division of Transportation (KDOT) at (630) 584-1170.
